COMPANY OVERVIEW

Chris Wolf, Inc., formerly known as Wolf Group Security, is a trusted security systems integrator headquartered in Floresville, Texas. Established in 2003 and registered with the System for Award Management (SAM) since 2005 as a Veteran-Owned Small Business. The company has built a strong reputation for delivering dependable, high-quality security solutions to include the installation, integration, and maintenance of Intrusion Detection Systems (IDS), Access Control Systems (ACS), and CCTV/Video Surveillance Solutions.

Encompassing over 60 years of combined experience, our professionals are trained and certified in leading-edge platforms such as Honeywell, Vindicator, OSSI and Pelco, ensuring compliance with industry standards and government requirements. Beyond system installations, our team also provides fiber optic cabling, hardware mounting, fusion splicing, and

ongoing maintenance to ensure the highest level of reliability and performance. Over the years, we have proudly supported a diverse range of clients—including government agencies, military installations, healthcare facilities, educational institutions, and commercial enterprises—delivering tailored security solutions that safeguard people, property, and assets.
